

CHURCH PLANTING MOVEMENTS - A time for Europe? *with Paul Watson*

WHAT?

Paul Watson has initiated CPMs in some of the most challenging settings on earth. The model in which you will receive training was developed by his father David during his years with the International Missions Board and is focused on obedience-based discipleship and on Jesus' example in Matthew 10 and Luke 10. His experience is highlighted in the Perspectives course (www.perspectives.org) and is causing many to rethink established church planting methodologies. God has used the leaders trained using this approach to start over 100,000 churches in the past 15 years, and more than 4 million people have been baptized as a result. Paul, who has been associated with this ministry for many years, will be leading this conference. He is convinced that this model will work effectively in Europe.
